Commercial treaty No. 5.

Examination of articles of treaty draft with Italian delegation will probably be completed about October 1. Certain details will then require further discussion for purposes of clarification, and records and reports of discussions put in order. Remainder of negotiation will depend upon action of Department on suggestions and counter proposals of Italians.

In view of above does Department approve Setser's leaving for US about October 12 or as soon thereafter as travel can be arranged? Instructions on this point should be expedited.
